

The new Schwalbe
Pro One HT: handcrafted
quality to meet the highest
demands.

Schwalbe Pro One now available as a handmade tubular

Schwalbe now offers the Schwalbe Pro One professional racing tire as a handmade tubular. Its triple, OneStar compound and mixed polyester-cotton carcass reduce rolling resistance and guard against vibration breakthrough. The diamond tread ensures grip even in the most difficult conditions. "The Schwalbe Pro One HT is carefully crafted by hand. This guarantees outstanding quality in every tire," says Peter Krischio, Product Manager Race at Schwalbe.

The Schwalbe Pro One HT tubular tire makes its appearance in the market in fall 2016 (22mm and 25mm sizes).
